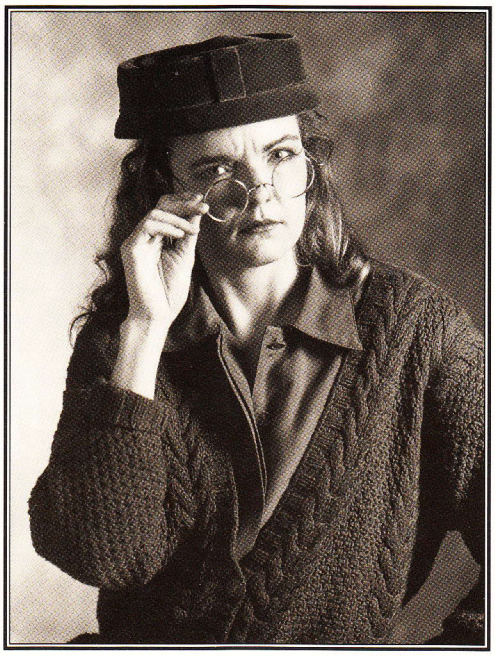
WANTED



Moms DeWerd

"Moms" DeWerd

OCCUPATION

RETIRED CHORUS-LINER AND SEMI-RETIRED MOBSTER.

DESCRIPTION

Moms is the former queenpin of the Sweden-based DeWerd disorganized crime family. Now retired, the carrot-topped racketeer often advises Carmen on such knotty problems as how to evade the police, how to avoid the IRS and how to make a flaky and tasty pie crust. A showgirl in her younger days, Moms had to continuously fight off celebrity suitors from Fatty Arbuckle to Al Capone to Babe Ruth. The Babe still owns a place in Moms' heart, and his photo adorns Moms' rec room wall. This malefactress often disguises herself under a pill box hat and veil, but she can be spotted in a crowd when she travels with her pet Opossum, Zippy.
